Portfolio: **portofolio-zaki**

PROFESSIONAL SUMMARY

Broadband Multimedia graduate of Politeknik Negeri Jakarta (GPA 3.66/4.00). Looking for an **entry-level role in web development or back-end**. Did an 8-month internship (140 working days) at PERUM LKBN ANTARA, working on an internal CRM module, OTP login, and a Docker Compose setup. Built personal projects with Django, Node.js, React, and TensorFlow, including REST APIs, a price forecasting model, and a movie recommender. Holds 9 Dicoding certificates.

EDUCATION

Politeknik Negeri Jakarta (PNJ), Depok, Indonesia **2022 - 2026**
Diploma IV (Applied Bachelor), Telecommunication Engineering / Broadband Multimedia | GPA: 3.66/4.00 (Very Satisfactory)

- Relevant coursework: Software Engineering, Data Structures & Algorithms, Databases, Computer Networks & Cloud, Information Security.

WORK EXPERIENCE

PERUM LKBN ANTARA (Indonesian National News Agency), Central Jakarta **Sep 2025 - Apr 2026**
IT Developer Intern, IT Development Department, Information Technology Division (8 months / 140 working days)
Repository | **Dashboard** | **Internship Contract (PDF)** | **Logbook (PDF)**

- Designed and built an internal web-based CRM module for invoice digitization, B2B sales team workflow, and media-licensing management (text, HD photo, broadcast video).
- Developed a two-step login authentication module (6-digit OTP via SMTP/PHPMailer), with cooldown and brute-force rate-limiting protection.
- Implemented Role-Based Access Control (RBAC) to separate data access between super-admins, internal editorial staff, and partner clients.
- Led the migration of the legacy local setup from XAMPP to a multi-service Docker Compose environment (PHP-FPM, Nginx, MariaDB).
- Wrote technical architecture and handover documentation (HANDOVER.md, README-SETUP.md, ROLE-ACCESS.md).

FEATURED PROJECTS

Bitcoin 24-Hour Price Forecasting (Seq2Seq LSTM & Self-Attention)
Tech Stack: TensorFlow, Keras, Python, Custom Attention, tf.GradientTape, Chart.js
Repository | **Dashboard** | **Jupyter Notebook**

- Built a Seq2Seq Encoder-Decoder LSTM model with a custom self-attention layer to forecast Bitcoin (BTC/USD) prices 24 hours ahead.
- Wrote a custom low-level training loop (tf.GradientTape) with gradient clipping, evaluated using MAE/RMSE.
- Built an interactive web dashboard on Vercel with live Chart.js visualizations and an EDA notebook on Google Colab.

CineMatch: End-to-End Movie Recommender System
Tech Stack: TensorFlow/Keras, Scikit-Learn, RecommenderNet, TF-IDF, MovieLens 100K
Repository | **Dashboard** | **Jupyter Notebook**

- Built a hybrid movie recommender combining content-based filtering (TF-IDF & cosine similarity) with deep-learning collaborative filtering (RecommenderNet) on the MovieLens dataset (100,000+ ratings).
- Designed a neural embedding architecture with dropout regularization to reduce cold-start issues and prediction error.

Dicoding Forum App: React 18, Redux Toolkit & Automated Testing
Tech Stack: React 18, Redux Toolkit, Cypress (E2E), Jest, GitHub Actions
Repository | **Dashboard**

- Built a discussion forum app with Redux Toolkit state management, Jest/Cypress automated testing (5-star rating), and a GitHub Actions CI/CD pipeline auto-deploying to Vercel.

DicoEvent V2: Scalable Event Management REST API (5-Star Rated)
Tech Stack: Python, Django, Django REST Framework, PostgreSQL, Redis, Celery, RabbitMQ, MinIO S3
Repository | **Dashboard**

- Designed a REST API passing 233 automated Newman/Postman tests; used Redis caching to cut database query latency by ~65%, and Celery & RabbitMQ for distributed ticket processing with MinIO S3 media storage.

LDK FIKRI PNJ: Prototype Organization Portal
Tech Stack: Next.js 15, TypeScript, Tailwind CSS, Supabase (PostgreSQL)
Repository | **Dashboard**

- Built the organization's prototype portal using SSR and Next.js 15 Server Actions, reaching a 95+ Google Lighthouse score.
- Integrated Supabase PostgreSQL for articles, event schedules, prayer times, and a campus mosque waqf calculator/tracker.

WhatsApp Desktop Automation Sender & Batch Messenger
Tech Stack: Python, Win32 API, PyAutoGUI, Pandas, OpenPyXL
Repository | Interactive Simulator

- Built a bulk WhatsApp Desktop sender using the native whatsapp:// URI protocol, avoiding a heavy dependency like Selenium.
- Used Win32 scan-code key injection for reliable message sending, with randomized delays to avoid spam-like behavior.

Notes App: Modular Web Components & REST API v2
Tech Stack: Vanilla JavaScript (ES6+), Web Components (Shadow DOM), Webpack 5, Dicoding Notes API
Repository | Dashboard

- Built a framework-free modular web app using native Web Components (Custom Elements & Shadow DOM), bundled with Webpack 5.

Forum API V2: Clean Architecture & Automated CI/CD
Tech Stack: Node.js, PostgreSQL, Jest (TDD), Docker, GitHub Actions, AWS EC2, Nginx SSL
Repository

- Applied Clean Architecture (Domain/Application/Infrastructure/Interface layers) with 100% Jest test coverage and a GitHub Actions CI/CD pipeline deploying to AWS EC2.

DicoStory: Offline-First PWA with GIS Mapping
Tech Stack: JavaScript, Vite, Service Worker, IndexedDB Outbox, Leaflet.js
Repository | Dashboard

- Built an installable story-sharing PWA with an offline outbox queue (IndexedDB), web push notifications, and interactive Leaflet.js map visualization.

LEADERSHIP EXPERIENCE

UKM LDK FIKRI, Politeknik Negeri Jakarta 2024 - 2026
Head of PSDM Bureau (2025-2026) and Head of Syiar Department (2024-2025). Handled member development, internal governance, and campus outreach programs. | Certificate

LICENSES & CERTIFICATIONS

Advanced Deep Learning Projects | Google Developers & Dicoding | ID: JMZVL3MROXN9 Certificate
Applied Machine Learning | Google Developers & Dicoding | ID: MRZMVEGMLZYQ Certificate
Becoming a React Web Developer Expert | Dicoding Indonesia | ID: 1OP87N8Q1ZQK Certificate
Becoming a Back-End Developer Expert with JavaScript | AWS & Dicoding | ID: 1RXYD1YYMXVM Certificate
Front-End Web Development Fundamentals | Google Developers & Dicoding | ID: 6RPNO1KE5X2M Certificate
Back-End Fundamentals with Python | Dicoding Indonesia | ID: 0LZ0J29EQX65 Certificate
Intermediate Web Development | Google & Dicoding | ID: NVP7W78L4ZR0 Certificate
Building Flutter Apps for Beginners | Dicoding Indonesia | ID: 6RPNYQVY5Z2M Certificate
Web Programming Fundamentals | Dicoding Indonesia | ID: 2VX3RR4KVZYQ Certificate

TECHNICAL SKILLS (FAMILIAR WITH)

Languages	: JavaScript, TypeScript, Python, PHP, SQL, Dart, HTML, CSS
Web Frameworks	: React, Next.js, Django, Django REST Framework, Node.js (Express, Hapi), Tailwind CSS, Bootstrap
AI / Machine Learning	: TensorFlow, Keras, Scikit-Learn, Pandas, NumPy, Matplotlib
AI Tools	: Claude, Codex, Antigravity, n8n
Databases & Caching	: PostgreSQL, MariaDB, Supabase, Redis
Cloud & DevOps	: Docker, Docker Compose, Git, GitHub Actions, AWS (EC2), Nginx, Celery, RabbitMQ
Testing	: Jest, Cypress, Postman/Newman
Office & Design	: Microsoft Word, Excel, PowerPoint, Google Workspace, Canva
Soft Skills	: Problem Solving, Teamwork, Communication, Leadership, Adaptability
